PROJECT

E-COMMERCE: E-commerce URL

SKILLS

TECHNICAL SKILLS
Programming languages

Front-End
HTML, CSS, Bootstrap, JavaScript, React.js

Back-end
Python, Django REST Framework, REST API, Oracle SQL,
MySQL, PostgreSQL

SOFTWARE

Advanced :
Microsoft Word, PowerPoint

CERTIFICATIONS

PYTHON FULL STACK FROM BESANT TECHNOLOGIES

- I have successfully completed my Python Full-Stack Development training at Besant Technologies. The course covered both front-end and back-end development, enhancing my skills in web technologies.
- This training has strengthened my foundation for building full-stack applications efficiently. I gained hands-on experience working with Django, React, and database management.

TOPIC'S COVERED
HTML, CSS, BOOTSTRAP, JAVASCRIPT, REACT,
PYTHON,ORACLE SQL, MY SQL

MY OBJECTIVE

- Motivated junior full-stack developer with hands-on knowledge in Django and Django REST Framework. Looking for an opportunity to contribute to a dynamic development team. Adept in both front-end and back-end development and eager to apply my skills in a challenging environment to contribute to organizational success and personal growth.

EXPERIENCE

SOFTWARE ENGINEERING TRAINEE – PYTHON DEVELOPER
JVL Technologies, Chennai — Jan 2025 to June 2025

- Completed a 6-month internship as a Python Developer at JVL Technologies. Contributed to software development tasks under the guidance of the engineering team. Demonstrated strong analytical thinking, teamwork, and a proactive approach to completing assigned responsibilities. This internship strengthened my foundation in back-end development and practical exposure to real-world software projects.

PROJECTS

E-COMMERCE | LIVE URL

- Developed a full stack E-Commerce website using React and Django REST Framework. Enabled users to browse products, add items to the cart, and place orders.
- Implemented back-end logic for product management, order processing, and user authentication using Simple JWT.
- Ensured a smooth and responsive front-end experience, enhancing usability across devices.

KEY FEATURES:
Authentication :
- Utilized Simple JWT for authentication in the e-commerce project to enable secure login and token-based access control.
- Ensured that only authorized users could perform specific actions, with refresh tokens implemented to maintain user sessions without repeated credential entry.

Payment Option :
- Integrated Razorpay as the payment gateway to facilitate secure order payments using credit/debit cards, net banking, and digital wallets.
